# Guidelines for Section **3** Current and previous registrations

---

## Current and previous registrations

The Board requires a Certificate of Registration Status or Certificate of Good Standing (Certificate) from **every** jurisdiction in which you are currently, or have previously been registered as a health practitioner (includes overseas registration) during **the last 5 years**.

You must arrange for **original Certificates** to be forwarded **DIRECTLY** from the licensing or registration authority to the Board.

Certificates must include the following:

- The full name of the health practitioner
- The date the practitioner was first issued registration in that jurisdiction
- Categories or types of registration held (e.g. General, Probationary)
- The date that the registration expired/lapsed (if relevant)
- The current registration status (i.e. details of any conditions or undertakings that apply to the practitioner's registration in that jurisdiction)
- The name of the issuing authority (i.e. the jurisdiction(s) of registration)
- Details of any preliminary disciplinary actions or investigations — current or proposed
- Details of any conditions or undertakings that apply to the practitioner's registration
- Any other information recorded on the register relevant to the Board's determination to grant registration (i.e. the practitioner's qualifications).

A Certificate is valid for 3 months from the date of issue and must be valid at the time of application (i.e. the date the Board receives the application).

If the Board receives verification documents that do not meet above requirements, the processing of applications will be delayed and the obligation will be on the applicant to follow-up with the issuing regulatory authority.

If a Certificate is in a different language, the Board will seek translation and **the application will not be complete**, and therefore will not be processed, until this translation has been provided to the Board.

A Board's policy on *Certificates of Registration Status* is available at the Board's website.

## Practice in jurisdictions where registration not required

*If you have ever practised in a jurisdiction where registration was not required, you must attach to your application **at least two references** from each of those jurisdictions in which you have practised in the last 5 years.*

**At least one** of the persons from each jurisdiction should be a health practitioner in the profession with recent professional experience, and must be able to state in the reference that they have **3 or more years experience** in the profession.

The reference should be provided on the form at **Appendix A**.

The date of the reference must not be more than 3 months prior to the date the Board receives the application.

A Board's policy on *Reference requirements* is available at the Board's website.

*If the qualification you are relying on for this application was awarded or conferred more than 3 years ago, you must complete and attach to your application [a Curriculum Vitae \(CV\) in the format specified by the Board](#) (available at **Appendix B**). The standard format is to enable the Board to assess your CV, and to increase the speed and quality of assessment.*

In your CV you must:

# Guidelines for Section 5 Fitness to Practise

The Board must be satisfied that you are suitable to practise the profession. The fitness to practise factors that the Board will consider are set out under section 45 of the Registration Act.

You are required to answer the questions under Section 5 truthfully. *If you answer 'yes' to any question under section 5 (other than the 'Blood borne viruses' question — see below), you must attach to your application a full explanation (on a separate sheet) of the circumstances and detail any condition or current disciplinary or other orders to which you are subject.*

## Blood borne Viruses

You must be in a position to answer "Yes" to the questions relating to blood borne viruses by having been tested for blood borne viruses in the last 12 months. The Board considers it is the responsibility of individual dental practitioners to be aware of their infection status for HIV, Hepatitis B and Hepatitis C and testing should be undertaken prior to commencement of work requiring the performance of exposure prone procedures and repeat testing at least once every 12 months.

The Board's Policy #9, *Dental Practitioners and Blood Borne Viruses* can be found on the Board's website.

## 'Health practitioner'

The use of the term 'Health practitioner' in this document includes any registered provider of services directed at maintaining, improving or restoring people's health and wellbeing.

Criminal History *does not* include minor traffic offences, e.g. parking, speeding, red light, mobile phone.

The existence of a Criminal History does not lead to automatic refusal of registration. Each case will be assessed on its merits using the information provided to, and gathered by, the Board.

If you have a criminal history from ...

- **Any jurisdiction (Australia or overseas)**  
You must attach to your application **a full explanation (on a separate sheet) of the circumstances and detail of your criminal history**. This should include any documents or correspondence you received from the courts or law enforcement authorities relating to the charge(s) and / or conviction(s). This will be used in conjunction with an official Police Certificate to assess your case.
- **Any other country**  
You must ALSO attach to your application **a Police Certificate from the law enforcement authority of the relevant jurisdiction** (see policy *Criminal History Checking: Applicant policy*).

Your criminal history will be verified with Australian police authorities. This may cause a delay in the processing of your application (see policy *Criminal History Checking: Applicant policy*)
